Engineering Services / Training

Kinetics engineering services technical preparation time:

- ❖ To provide the highest quality & efficiency on-site engineering services. Kinetics’ field service engineers and technicians prepare for a site visit prior to leaving the Kinetics factory. Engineers and technicians prepare by completing the following:
 - Review job specific engineering file, including original factory QC reports and design parameters.
 - Prepare a set of schematics and/or field service O&M manual to bring to the job site.
 - Assemble potentially required spare parts to service the unit.
 - Devise a service/trouble-shooting plan with Kinetics’ engineering team.
